

ALLYN AND BACON INTERNATIONAL SERIES IN ECONOMICS

# QUANTITATIVE INTERNATIONAL ECONOMICS

**LEAMER and STERN**

— fills the important gap between pure theory and policy in international economic relationships.

QUANTITATIVE INTERNATIONAL ECONOMICS

Allyn and Bacon

QUANTITATIVE  
INTERNATIONAL ECONOMICS

From a pre-publication review —

"... fills an important gap in the field of international economics. It brings together in a clear, concise way all the important econometric studies of international economics and orders them in a fashion highly suitable for the classroom ... a valuable reference work on quantitative international economics, an area in which it has no competitors."

Donald Sherk, Chairman  
Economics Department,  
Simmons College

This distinctive book sets forth, on an advanced level, various methods for the quantitative measurement of important relationships at issue in areas of the balance of payments and international trade and welfare. The results achieved in recent studies are presented and the directions for new research are indicated. In particular the book treats the statistical estimation of import and export demand functions, the elasticity of substitution, international capital movements, international trade flows, econometric models for forecasting and policy purposes, factors determining export performance, and the welfare effect of trade liberalization. Economists in private and government employment, academicians and students of advanced economics will find this book a valuable and highly useful guide and reference work.

Printed in U.S.A.

CONTENTS

1. Introduction
- I. THE BALANCE OF PAYMENTS
  2. Time-Series Estimation of Import and Export Demand Relations
  3. The Theory and Measurement of the Elasticity of Substitution in International Trade
  4. The Estimation of International Capital Movements
  5. Forecasting and Policy Analysis with Econometric Models
- II. INTERNATIONAL TRADE AND WELFARE
  6. The Theory and Measurement of Trade Dependence and Interdependence
  7. Constant-Market-Share Analysis of Export Growth
  8. Estimating the Welfare Effects of Trade Liberalization

Edward E. Leamer is Assistant Professor of Economics at Harvard University. He received his Ph.D. from The University of Michigan.

Robert M. Stern is Professor of Economics at The University of Michigan. He received his Ph.D. from Columbia University.

## Contents

	List of Figures and Tables	vii
	Preface	xi
Chapter 1	Introduction	1
PART I	THE BALANCE OF PAYMENTS	5
Chapter 2	Time-Series Estimation of Import and Export Demand Relationships	7
	<i>Choice of Variables, 8. Functional Form, 17. Time Dimension, 19. Special Problems in Estimation, 28. Reporting Results, 36. Conclusion, 40. Appendix to Chapter 2, 41. References, 51.</i>	
Chapter 3	Theory and Measurement of the Elasticity of Substitution in International Trade	56
	<i>Theoretical Foundation, 57. Measurement, 63. Interpretation and Use of Results, 64. Pooled Time-Series and Cross-Section Estimation, 69. Conclusion, 71. Appendix to Chapter 3, 72. References, 74.</i>	
Chapter 4	The Estimation of International Capital Movements	76
	<i>The Theory of International Capital Movements, 77. The Measurement of International Capital Movements, 92. Conclusion, 104. References, 105.</i>	

Chapter 5	Forecasting and Policy Analysis with Econometric Models	108
	<i>Economic Forecasting</i> , 109. <i>Policy Analysis</i> , 117.	
	<i>A Model of the World Economy</i> , 118. <i>Evaluation of Econometric Models of the U.S. Balance of Payments</i> , 122. <i>Conclusion</i> , 132. <i>Appendix to Chapter 5</i> , 133. <i>References</i> , 140.	

PART II INTERNATIONAL TRADE AND WELFARE 143

Chapter 6	Theory and Measurement of Trade Dependence and Interdependence	145
	<i>The Theory and Measurement of General Equilibrium Trade Sectors</i> , 147. <i>The Theory and Measurement of Trade Flows</i> , 157. <i>Conclusion</i> , 168. <i>References</i> , 168.	

Chapter 7	Constant-Market-Share Analysis of Export Growth	171
	<i>Theory and Measurement</i> , 171. <i>The Choice of "Standard,"</i> 176. <i>Further Implications</i> , 177. <i>Conclusion</i> , 179. <i>A Numerical Illustration</i> , 179. <i>References</i> , 182.	

Chapter 8	Estimating the Welfare Effects of Trade Liberalization,	184
	<i>The Welfare Effect of a Prohibitive Tariff</i> , 185. <i>The Welfare Effect of a Nonprohibitive Tariff</i> , 190. <i>Statistical Estimation of Welfare Effects</i> , 194. <i>Customs Unions and Trade Preferences</i> , 195. <i>Conclusion</i> , 196. <i>References</i> , 197.

## Figures and Tables

FIGURES	2.1	Demand for Imports: Perfect Substitutability Between Home and Foreign Goods	11
	2.2	Linear Regression Fit to Curvilinear Demand Schedule	19
	2.3	Adjustment of Quantity to a Change in Price	20
	2.4	Adjustment of Quantity to Successive Price Changes	20
	2.5	Linear Regression Fit to Quantities Adjusted to a Change in Price	22
	2.6	Unacceptable Configuration of $\alpha_1$	26
	2.7	Alternative Configuration of $\alpha_1$	27
	2.8	Downward Bias in the Estimated Price Coefficient	30
	2.9	Unbiased Estimate of Price Coefficient	31
	2.10	Errors of Observation in Quantity	32
	2.11	Errors of Observation in Price	32
	2.12	Confidence Intervals for Income and Price Elasticities for U.S. Import Demand	35

3.1	The Elasticity of Substitution Along a Single Indifference Curve	58
3.2	The Elasticity of Substitution Between Two Indifference Curves	59
3.3	Income and Substitution Effects	66
3.A.1	Range of Values of Elasticity of Substitution	73
4.1	The Effect of Capital Controls	97
4.2	The Effect of Credit Rationing	98
5.1	Probability Forecasts	113
6.1	Consumption Possibilities in the Absence of Trade	148
6.2	Consumption Possibilities with Trade	148
6.3	Resource Endowment Skewed Towards Export Production	149
6.4	Resource Endowment Skewed Towards Home Goods Production	150
6.5	Balanced Resource Endowment	150
6.6	Hypothetical Growth Paths of Imports in Relation to GNP	154
8.1	Welfare Effect of a Prohibitive Tariff	185
8.2	Welfare Gain in a Simple Exchange Situation	186
8.3	Measurement of Welfare Gain: <i>A</i>	187
8.4	Measurement of Welfare Gain: <i>B</i>	187
8.5	Compensated Demand Curve	188
8.6	Welfare Effect of a Nonprohibitive Tariff	190

	8.7	Welfare Triangles	191
	8.8	The Impact of Terms-of-Trade Changes	193
TABLES	2.1	Explanatory Variables Used in Import Demand Analysis	13
	4.1	International Investment Position of the United States at Year-End, 1967	99-100
	4.2	Short-Term Claims on Foreigners Reported by Banks in the United States at Year-End, 1967	101
	5.1	Changes from 1961 to 1968 in U.S. Current Account	124
	5.2	Prachowny's Quarterly Model of the Foreign Sector of the U.S. Economy, 1953-59	126-127
	5.A.1	Estimates of the Trade and Savings Gaps	138
	7.1	Illustration of the Constant-Market-Share Analysis of Changes in Italian Exports, 1955-59	180-181
	8.1	Estimated Direct Welfare Effects of Trade Liberalization in the Kennedy Round	196
