The Anderson School’s distinguished faculty includes some of the most outstanding educators and researchers from both the academic and business worlds.

Accounting
David Aboody, associate professor; Ph.D., Accounting, UC Berkeley; empirical research in financial accounting

Shlomo Benartzi, associate professor; Ph.D., Accounting, Cornell University; empirical research on retirement plans

Rebecca N. S.T. Hann, assistant professor; Ph.D., Accounting, University of Pennsylvania; financial reporting and corporate governance

Carla Hayn, associate professor; academic unit head; Ph.D., Accounting/Finance, University of Michigan; empirical financial accounting, financial reporting issues, taxes on capital markets

John S. Hughes, professor; Ernst and Young Chair in Accounting; Ph.D., Accounting, Purdue University; theoretical and empirical analysis of incentive contracting, industrial markets, capital markets

Patricia J. Hughes, professor; Ph.D., Accounting, University of British Columbia; theoretical and empirical analysis of disclosure and communication between manager and investors when manager has private information about future prospects of the company

Jing Liu, assistant professor; Ph.D., Accounting, Columbia University; equity valuation

Bruce L. Miller, professor; Ph.D., Operations Research, Stanford University; managerial accounting, financial accounting

Michael G. Williams, assistant professor; Ph.D., Accounting, University of Southern California; Ph.D., Economics, Princeton University; policy-related accounting research

Sung-Soo Yoon, assistant professor; Ph.D., Accounting, University of Illinois; theoretical aspects of accounting research

Li Zhang, assistant professor; Ph.D., Accounting, Carnegie Mellon University; principal-agent theory

Decisions, Operations, and Technology Management
Reza H. Ahmadi, professor; Ph.D., Operations Management, University of Texas at Austin; production and scheduling in automated electronic systems, product design and development, supply chain management

Sushil Bikhchandani, professor; associate dean and director, Ph.D. program; Ph.D., Decision Sciences, Stanford University; economics of information, decision theory, game theory

Scott M. Carr, assistant professor; Ph.D., University of Michigan; operations strategy and economics, capacity and pricing models, production planning

Charles J. Corbett, assistant professor; Ph.D., Management, INSEAD, France; supply chain management, environmental management

Donald Erlenkotter, professor; Ph.D., Management Science, Stanford University; mathematical models for planning, decision analysis, natural resources development, optimization

Arthur M. Geoffrion, professor; academic unit head; James A. Collins Chair in Management; Ph.D., Operations Research, Stanford University; mathematical programming theory and algorithms, modeling systems, applications to supply chain management and e-business

Uday S. Karmarkar, professor; Times Mirror Chair in Management Strategy and Policy; director, Center for Management in the Information Economy; Ph.D., Management Science, Massachusetts Institute of Technology; manufacturing and service decision systems, competitive operations, strategy, operations in information intensive industries, technology management

(does continued)
Faculty Listing

John W. Mamer, professor; Ph.D., Management Science, UC Berkeley; stochastic models, warranty policies, network models, game theory

Kevin F. McCardle, professor; Ph.D., Mathematics, UCLA; decision analysis, game theory

Donald G. Morrison, professor; William E. Leonhard Chair in Management; Ph.D., Operations Research, Stanford University; stochastic models

William P. Pierskalla, professor; Ph.D., Operations Research, Stanford University; health care management, operations management

Kumar Rajaram, assistant professor; Ph.D., Operations and Information Management, University of Pennsylvania; industrial process management, retail operations management, operations management in the theme parks and entertainment industry

Rakesh K. Sarin, professor; Paine Chair in Management; chairman and senior associate dean; Ph.D., Management, UCLA; multicriteria decision-making theory and methods, risk analysis, applications to operations management

Christopher S. Tang, professor; Edward W. Carter Chair in Business Administration; Ph.D., Operations Research, Yale University; mathematical models of assembly automation, production planning and inventory-control problems, mathematical programming

William Yost, adjunct professor; D.B.A., Business Administration, Harvard University; managing the operational impact of changing organizations; entrepreneurial operations.

Finance Faculty

Theodore A. Andersen, associate professor emeritus, recalled; Ph.D., Economics, University of Wisconsin; managerial finance, managerial economics

Antonio E. Bernardo, associate professor; Ph.D., Economics, Stanford University; corporate finance, information in financial markets

Michael J. Brennan, professor emeritus; Goldyne and Irwin H. Earl Chair in Money and Banking, emeritus; Ph.D., Finance, Massachusetts Institute of Technology; option pricing, bond valuation

Bhagwan Chowdhry, professor; director, Center for International Business Education and Research; Ph.D., Finance, University of Chicago; international finance, corporate finance and strategy

Bradford Cornell, professor; Ph.D., Financial Economics, Stanford University; futures markets, international finance, applied price theory, money markets

Robert L. Geske, associate professor; Ph.D., Finance, UC Berkeley; financial economics, option pricing theory, speculative markets

Mark J. Garmaise, assistant professor; Ph.D., Finance, Stanford University; corporate finance, financial contracting, venture capital, real estate

Mark S. Grinblatt, professor; Ph.D., Economics, Yale University; empirical and theoretical asset pricing, corporate finance

Matthias Kahl, assistant professor; Ph.D., Economics, University of Pennsylvania; corporate finance, financial intermediation, financial distress, agency and contract theory

Jun Liu, assistant professor; Ph.D., Finance, Stanford University; theoretical and empirical asset pricing, economics

Francis A. Longstaff, professor; academic unit head; Ph.D., Finance, University of Chicago; futures and options markets, term structure theory, valuation of derivative securities, market microstructure, asset pricing theory

Monika Piazzesi, assistant professor; Ph.D., Economics, Stanford University; asset pricing, applied time series, macroeconomics, monetary policy, fixed income securities, bond markets
Richard W. Roll, professor; Japan Alumni Chair in International Finance; Ph.D., Economics, Finance, University of Chicago; financial economics, monetary theory, statistics

Pedro Santa-Clara, assistant professor; Ph.D., Finance, INSEAD, France; team structure theory and empirical tests, derivatives, default risk

Edward E. Leamer, professor; Chauncey J. Medberry Chair in Management; director, UCLA Anderson Forecast; Ph.D., Economics, University of Michigan; international economics, econometrics

Alfred E. Osborne, Jr., associate professor; director, Price Center for Entrepreneurial Studies; Ph.D., Business Economics, Stanford University; microeconomics, welfare economics, minority economic development, finance and financial markets, entrepreneurship

Vanidhar Subrahmanyam, professor; Ph.D., Finance, UCLA; investor psychology, determinants of stock returns

Walter M. Oros, professor; director, Richard S. Ziman Center for Real Estate; Ph.D., Economics, University of Pennsylvania; managerial finance, pricing of financial instruments, reorganization of financially distressed firms

Rosser I. Vaikanov, assistant professor; Ph.D., Finance, Princeton University; empirical asset pricing, econometrics, macroeconomics

Jennifer W. Eston, professor emeritus; Warren C. Cordner Chair in Money and Financial Markets, emeritus; director, Competition and Business Policy Research; Ph.D., Finance, University of Chicago; effects of industrial concentration, returns on R&D investments, econometric study of industrial organization, concentration and inflation, economies of scale

Global Economics & Management

Antonio E. Bernardo, associate professor; Ph.D., Economics, Stanford University; corporate finance, information in financial markets

Bhagwan Chowdhry, professor; academic unit co-head; director, Center for International Business Education and Research; Ph.D., Finance, University of Chicago; international finance, corporate finance and strategy

Sebastian Edwards, professor; academic unit co-head; Henry Ford II Chair in International Management; Ph.D., Economics, University of Chicago; international economics, international finance, global economy, international business in developing countries

Monika Piazza, assistant professor; Ph.D., Economics, Stanford University; asset pricing, applied time series, macroeconomics, monetary policy, fixed income securities, bond markets

Hans Schollhammer, professor; D.B.A., International Business, Indiana University; multinational business strategies, comparative management, entrepreneurship, small business management

Victor C. Tabbush, adjunct professor; associate dean, Fully Employed MBA Program; Ph.D. Business Economics, UCLA; healthcare, labor and managerial economics

HR & OB Faculty

Corinne Bendersky, assistant professor; Ph.D., Management, Massachusetts Institute of Technology; conflict resolution, organizational intervention

Samuel A. Culbert, professor; Ph.D., Clinical Psychology, UCLA; mind set management, the constructive use of hierarchy, executive interpersonal effectiveness, individual empowerment, and the facilitation of teamwork and constructive organizational politics

(Continued)
Faculty Listing

Christopher Erickson, professor; Ph.D., Economics, Massachusetts Institute of Technology; wage determination, collective bargaining, comparative industrial relations

Eric G. Flamholtz, professor; Ph.D., Business Administration, University of Michigan; human resource management, human resources accounting, managing entrepreneurial organizations

Sanford M. Jacoby, professor; Howard Noble Chair in Management; Ph.D., Economics, U.C. Berkeley; labor market analysis, political economy, comparative industrial relations

Archie Kleingartner, professor emeritus, recalled; Ph.D., Industrial Relations, University of Wisconsin; professional employee associations, employee participation systems, labor relations in the public sector

Barbara S. Lawrence, associate professor; Ph.D., Management, Massachusetts Institute of Technology; age grading in work organizations, concentrating on firms with large engineering and managerial groups

David Lewin, professor; academic unit head; Neil H. Jacoby Chair in Management; Ph.D., Business Administration, U.C.L.A.; human resource management, public sector bargaining, grievance systems

John J. McDonough, professor; senior associate dean and faculty director, Executive MBA Program; D.B.A., Business Administration, Harvard University; individual and organizational accountability in contemporary industrial society

Daniel J.B. Mitchell, professor; Ho-Su Wu Chair in Management; Ph.D., Economics, Massachusetts Institute of Technology; wage/price controls, international aspects of labor problems, labor market analysis

William G. Ouchi, professor; Stanford and Betty Sigoloff Chair in Corporate Renewal; Ph.D., Business Administration, University of Chicago; business-government relations, comparative Japanese-U.S. studies, theory of organizational economics

David M. Porter, Jr., assistant professor; Ph.D., Organizational Behavior, Harvard University; managers' attributions and conceptions of commitment, race, gender and diversity issues in the U.S.

Anthony P. Rai, professor emeritus, recalled; Ph.D., Management, U.C.L.A.; role of power and politics in organizational change and development

Information Systems

George T. Geis, adjunct professor; Ph.D., Educational Psychology, University of Southern California; strategy in the digital economy

Martin Greenberger, professor; IBM Chair in Computers and Information Systems; Ph.D., Applied Mathematics and Economics, Harvard University; personal computing, electronic media, policy analysis, computer and communications technology in the newspaper industry

Bennett P. Lientz, professor; Ph.D., Statistics/Information Systems, University of Washington; software maintenance, computer networks, distributed processing, statistical measurement, software reliability, data security, computer training

E. Burton Swanson, professor; academic unit head; Ph.D., Business Administration, U.C. Berkeley; information system innovation, implementation, utilization and maintenance

IBCM

Bhagwan Chowdry, professor; Ph.D., Finance, University of Chicago; international lending, corporate takeovers, market microstructure, risk management

Charles J. Corbett, assistant professor; Ph.D., Management, INSEAD, France; supply chain management, environmental management

Sebastian Edwards, professor; Henry Ford II Chair in International Management; Ph.D., Economics, University of Chicago; international economics, international finance, global economy, international business in developing countries
Marketing

Andrew Ainslie, assistant professor; Ph.D., Marketing, University of Chicago; data-based modeling, economic and econometric modeling of consumer behavior, Bayesian estimation

Pradeep Bhardwaj, associate professor; Ph.D., Marketing, University of Toronto; delegation and hierarchy in sales force, distribution channels, retailing, franchising, services marketing, game theory, industrial organization

Anand Bodapati, assistant professor; Ph.D., Marketing, Stanford University; direct marketing, consumer behavior, target marketing on the Internet

Bart J. Bronnenberg, associate professor; Ph.D., Management, INSEAD; models of market dynamics, models of consumer learning, advertising response to models, marketing and geography

(Marketing continued)
Randolph E. Bucklin, professor; academic unit head; Ph.D., Marketing, Stanford University; choice models

Lee G. Cooper, professor; Ph.D., Psychology, University of Illinois; psychometrics, competitive choice processes and strategic marketing planning for new venture

Ely Dahan, assistant professor; Ph.D., Operations, Information, and Technology, Stanford University; new product development, web-based market research

Aimee L. Drolet, assistant professor; Ph.D., Marketing, Stanford University; affect and decision making, consumer preference formation

Dominique M. Hansens, professor; Bud Knapp Chair in Management; Ph.D., Management, Purdue University; quantitative models of markets and marketing effectiveness, marketing strategy

Harold H. Kassarjian, professor emeritus; Ph.D., Psychology, UCLA; consumer behavior, mass communications, public policy

Donald G. Morrison, professor; William E. Leonhard Chair in Management; Ph.D., Operations Research, Stanford University; stochastic models

Carol A. Scott, professor; Ph.D., Marketing, Northwestern University; information processing, communications strategies and consumer choice, marketing strategy

Sanjay Sood, assistant professor; Ph.D., Marketing, Stanford University; consumer decision making, managerial decision making, brand equity and information processing

Shi Zhang, assistant professor; Ph.D., Linguistics, University of Arizona; Ph.D., Marketing, Columbia University; cognition and information processing, advertising and branding, decision making and cross-cultural experiences

Policy Faculty

Sushil Bikhchandani, professor; associate dean and director, Ph.D. program; Ph.D., Decision Sciences, Stanford University; economics of information, decision theory, game theory

Michael R. Darby, professor; Warren C. Cordner Chair in Money and Financial Markets; director, John M. Olin Center for Public Policy; Ph.D., Economics, University of Chicago; macroeconomics, international finance, money and banking

Marvin B. Lieberman, professor; Ph.D., Business Economics, Harvard University; competitive strategy, industrial organization economics, production management

Steven A. Lippman, professor; George W. Robbins Chair in Management; Ph.D., Operations Research, Stanford University; dynamic programming, stochastic processes, probabilistic microeconomics, economics of search, negotiations analysis

John W. Mamer, professor; Ph.D., Management Science, UC Berkeley; stochastic models, warranty policies, network models, game theory

Kevin M. Cardle, professor; academic unit co-head; Ph.D., Mathematics, UCLA; decision analysis, game theory

Richard P. Rumelt, professor; academic unit co-head; Harry and Elsa Kunin Chair in Business and Society; D.B.A., Quantitative Methods/Business Policy, Harvard University; corporate strategy and policy, diversification, performance of diversified firms

Mariko Sarakibara, associate professor; Ph.D., Business Economics, Harvard University; strategy, industrial organization, international economics, business and government

Olav Sorensen, assistant professor; Ph.D., Sociology, Stanford University; evolution of organizations and industries, particularly in technology and entertainment sectors
