What is an Accounting Minor?

The UCLA Anderson Accounting Minor Program provides students with a comprehensive background in different accounting topics including financial and managerial accounting, taxation, financial statement analysis and more. The minor equips students with a comprehensive skill set including knowledge of accounting fundamentals, analytical skills to evaluate complex financial data, budget administration, and financial reporting as well as critical thinking and problem solving.

The Accounting minor credential can lead not only to a career as a CPA but can also help students acquire foundational analytical and financial skills for entry into varied roles within organizations such as accounts payable/receivable, auditing, banking, bookkeeping, consulting, entrepreneurship, finance, investments, general management, and taxation.
