

INNOVATION & DESIGN @ ANDERSON

INNOVATION & DESIGN
AT ANDERSON

IDeA is Anderson's Innovation and Design club. We offer hands-on learning tracks that transform the student experience by teaching them design thinking so they can tap into their creativity and be transformational business leaders. The skillset lends itself to customer-centric problem solving. It is a way of disentangling "wicked problems" and/or getting inside the consumer's experience to pursue the best solutions/product-market-fit. Follow us on Instagram @idea.ucla.anderson for updates!
