

WOMEN @ ANDERSON

► WOMEN'S BUSINESS CONNECTION

The Women's Business Connection (WBC) is a UCLA Anderson School of Management professional club that cultivates influential and inclusive business leaders by supporting and developing women from all MBA programs (Full-Time, FEMBA and EMBA) throughout their time at UCLA Anderson and beyond. The WBC fosters a strong, collaborative community that elevates all Anderwomen and equips our diverse members with the resources to form meaningful relationships, grow professionally and thrive. Our club encourages the advancement of women in business by creating compelling programming and championing gender equity and intersectionality on campus.
