

# CALL FOR PAPERS

## CONFERENCE ON LOW-INCOME HOUSING SUPPLY AND HOUSING AFFORDABILITY

APRIL 11-12, 2024  
UNIVERSITY OF CALIFORNIA, LOS ANGELES

JAMES A. GRAASKAMP  
CENTER for  
REAL ESTATE

Alrov Institute for Real Estate Research at Tel Aviv University, ESCP Business School, Graaskamp Center for Real Estate at the University of Wisconsin, Madison, and the UCLA Ziman Center for Real Estate are jointly organizing a conference on issues of low-income housing supply, related financing tools, inequality, and housing affordability and policy analysis. The selection committee is interested in economics and policy research on topics including housing affordability, inequality, house price and rent dynamics, rent control, low-income housing supply and demand, private-public partnerships including (but not limited to) the Low-Income Housing Tax Credit (LIHTC) and the Tax Increment Financing (TIF) programs, mortgage and housing finance system design and performance to support affordable housing, land use regulation and entitlements, demographic factors, homelessness, urban stratification, population mobility and immigration, and policy at all levels of government. **The conference is planned for April 11-12, 2024 at UCLA.**

Those interested in presenting a research paper at the conference should send a PDF of their paper to [ziman.center@anderson.ucla.edu](mailto:ziman.center@anderson.ucla.edu) by **December 15, 2023**. Authors of accepted papers will be notified by February 1, 2024. The conference sponsors will pay up to 3-day lodging expenses for one author of each accepted paper. Electronic copies of the conference papers will be made available on the conference website.
